

# ASK YOUR NEIGHBORS

And you will generally find that they know of more good, intelligent people, those of good sense and discernment in your vicinity who have been cured by Dr. Pierce's World-famed Family Medicines than by all other proprietary medicines. They have been making these cures right along for over forty years and altogether likely you will easily find people all about you who will be only too glad to say a good word for them. These old reliable curatives are not exploited or urged upon the afflicted by extravagant and false promises but have a record of real, genuine cures to sustain them.

**Among women Dr. Pierce's Favorite Prescription is truly a favorite by reason of its remarkable cures which, for over forty years by far exceed those which can be credited to any medicine extant. By a little inquiry you will no doubt find some of these cured and grateful cases in your immediate neighborhood, for they are to be met with practically EVERYWHERE. They are Dr. Pierce's best advertisements. Seek their advice if you are a poor despondent over-burdened broken down, weak, or pain-wracked woman, suffering from some derangement or weakness incident to your sex.**

The People's Common Sense Medical Adviser in plain English, by R. V. Pierce, M. D., (new fully revised up-to-date edition) gives all particulars which women need to know about their peculiar functions and how to correct ordinary derangements and weaknesses. Cloth-bound volume of 1000 pages, 31 one-cent stamps, or in paper covers for 21 cents, post-paid. Why not send for it NOW? The New Edition is almost a household necessity.

Address: World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.  
**DR. PIERCE'S PLEASANT PELLETS ARE A MILD BUT EFFICIENT PHYSIC.**

## THEY JUST KNOW

### We Can Fill Your Bill.

We are now in position to fill your bills promptly and satisfactorily.

#### WHY

Because we now have in operation at Hart, La., our BIG, COMPLETE SAWMILL AND MANUFACTURING PLANT. We manufacture our own Lumber Mouldings, etc. It is to your advantage to buy direct from a firm that manufactures the material you use.

First, as we manufacture our own lumber we see that it is well sawed, dressed and dried before it comes out of our retail yard.

Second, if you give us an order and it is not in stock at our yard, we can have it sawed for you promptly, and that means time saved and time saved means money saved.

Third, as we manufacture our lumber, in buying of us you save the middle man's profit; in fact you are buying direct from the manufacturer with the advantage of seeing the material before you buy it, and remember you have no freight to add to the first cost after you buy of us.

We are making a special effort to get good BARN TIMBERS and we are succeeding. We have in stock 4x6, 6x6, 8x8, and 8x10, all lengths from 10 to 20 feet. These timbers are strictly No. 1 yellow pine in the rough, because we think they make stronger timbers than if they were dressed. The first car load of these timbers are selling fast and we have ordered a second car from our mill. It will pay you to see them before buying your barn bill.

We have just unloaded a car of GALVANIZED CORRUGATED IRON ROOFING, 26 and 28 gauge, all lengths from 6 to 12 feet. We use the best care and we have our buyer to examine and test this roofing thoroughly before buying so as to give you the best roofing on the market, and from what our customers say we think we have secured it. Call and see us and get our prices on Paint, Rubber Roofing, Galvanized Roofing, Cement and Concrete Blocks.

**LOGAN-MOORE LUMBER COMPANY BUTLER, MISSOURI**

### FARMERS BANK OF BATES COUNTY.

Capital \$50,000  
Surplus 15,000.00

### INDEPENDENCE OF THE LAND OWNER.

The Farmer and Stockman has always considered it an important function of the agricultural press to stop the flow of humanity from the rural districts to the towns and cities. We have contended that the knowledge picked up by the boy on the farm is in most instances equivalent to capital by the time he has reached maturity. In other words, a young man who understands how to till the soil, to care for crops, to handle live stock, and can do these things reasonably well is in just as good a position to start life as is the young man in the city who has a few thousand dollars, but who has no specific knowledge of any business.

Holding these views as we do, we cannot regard it as a hardship to see the individual come into the years of his majority with but little capital, in the sense of having money, if he has a strong body accompanied by an ambition to amount to something. Such a one, however, in order to get the most out of his talents, must become the owner of some real estate. This is a large country and we have a tremendous variety of agricultural conditions. We have on the one hand our ranches where a single man with a comparatively small amount of help is able to operate thousands of acres, while on the other hand one can find instances where a family is living and living well on the income realized out of five or ten acres and even less than this.

The science of land irrigation has been greatly developed in recent years, and as a result of this millions of acres that were formerly regarded as worthless are now being utilized to produce food for the human race. Large areas where irrigation cannot be practiced have in the last decade been brought under the plow and are being made to produce profitable crops by what is known as dry farming methods. Range territory where formerly a single steer required a grazing area of four or five acres annually for his support is, in many instances, through the dry farming system bringing returns in grain from every acre equal to the average production of the best grain growing state in the union. This we consider is a fortunate state of affairs, because it means that as land in the great heart of our country goes beyond reach of the individual who has but small capital the new and cheaper lands will be added to the area of production by our young men who have the courage and ambition, as well as the inherent knowledge of the soil and crops, to take hold as pioneers just as their fathers did half a century ago and win out with what they undertake.

We have no advice to give the individual as to where and when he should invest in land, as that is a matter for him to work out for himself. The individual who gets ahead financially in this world must not be afraid to assume indebtedness in some form, and the man who has knowledge of production problems will make no mistakes by placing himself under an obligation to pay for a piece of land.—Farmer & Stockman.

#### Paris Butcher Guillotined.

Paris, Aug.—A sudden official announcement that a public beheading would take place at 4:30 o'clock Thursday morning in the boulevard fronting the State prison created a sensation in Paris, which has not seen an execution in fifteen years.

Immediately immense crowds gathered at the scene, but were kept back from the guillotine by heavy details of police and municipal guards. Parisian sentiment long has been opposed to public executions, for in the past they were accompanied by scandalous scenes of revelry.

Despite this sentiment, Parliament refused to abolish the death penalty in France, and in view of the revolting crime of the man executed Thursday morning, President Fallieres refused to commute his sentence to life imprisonment. The victim was named Duchemin, a butcher.

#### State Ratifies Income Tax.

Montgomery, Ala., Aug.—The house of representatives Tuesday by an unanimous vote ratified the income tax amendment to the constitution.

The state senate will vote Wednesday on the resolution. The action was taken before the tariff bill was read in the senate at Washington.

## OWES HER LIFE TO

### Lydia E. Pinkham's Vegetable Compound

Vienna, W. Va.—"I feel that I owe the last ten years of my life to Lydia E. Pinkham's Vegetable Compound."

Eleven years ago I was a walking shadow. I had been under the doctor's care but got no relief. My husband persuaded me to try Lydia E. Pinkham's Vegetable Compound and it worked like a charm. It relieved all my pains and misery. I advise all suffering women to take Lydia E. Pinkham's Vegetable Compound."

—Mrs. EMMA WHEATON, Vienna, W. Va.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases of any similar medicine in the country, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaints, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every such suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

New York Newspaper Comments on Tariff Bill.

New York, Aug.—The authors of the new tariff law would have to be easily pleased if they could find consolation in the New York editorial comments on the Payne-Aldrich measure. Following are excerpts from morning paper editorials:

The Times—Grover Cleveland withheld his signature from the Wilson tariff bill because it contained provisions which he declared to be "not in line with honest tariff reform." President Taft signs the Payne-Aldrich bill and makes it a law, although it is worse than the Dingley tariff and imposes many duties higher and more burdensome than those it replaces. That is, concisely put, the difference between the two revisions, the differences between the two men.

The Sun—Well, let us make the best of it all and be glad it is over. Let us make ready for the national prosperity that seems to be determined to rush down upon us and overwhelm us, not because of this wretched travesty of tariff legislation in the year of Our Lord Nineteen Hundred and Nine, but in spite of it.

The World—For the first time in the history of the United States we now have a law whose avowed object is to "guarantee a reasonable profit to American industries." The tariff bill which received executive approval is certain, therefore, to be celebrated no less for the candor of its authors than for the drastic provisions of its schedule.

The American—The astonishing, the stupendous fact, is that all the public spirited powers in the country, with 90 per cent of people and unquestionable common sense on their side could not struggle as they would—get by Mr. Aldrich.

The Herald—After all, there are few drastic changes in the schedules. Conviction that there would be no violation of the protection principle has been widespread from the beginning.

The Tribune—The Tribune does not hesitate to say that it would have preferred a somewhat larger measure of reduction. But allowances must be made for the enormous obstacles in the way of downward revision.

General Rumbold May Have to "Dig Up."

Sedalia, Mo., Aug. 9.—Captain W. A. Collins, commander of Company D. Second regiment National Guard of Missouri, was notified by Adjutant General Rumbold that a mistake had been made in the payroll of this company while on duty at Camp Hadley during the recent State encampment at Nevada, and that each officer and private would have to remit at once one day's pay to the adjutant general's office.

The notification stated that the company's men had been paid for ten days' service instead of nine. The mistake was made in the adjutant general's office and if the boys in blue fail to remit, General Rumbold will have to foot the bill.
